

## GET INVOLVED

### Mental Health Professionals' Network

**MHPN supports networks of mental health practitioners who meet regularly to build relationships, improve referral pathways, create local professional development opportunities and share knowledge and experiences.**

#### Eligibility for MHPN support

To be supported by MHPN, networks must have a mental health focus and aim to:

- > include three or more members from relevant disciplines, including a General Practitioner (GP)
- > meet on a regular basis, ideally a minimum of four times per year.

#### How you can benefit

By joining or establishing an MHPN network, you can improve consumer outcomes by:

- > expanding your mental health referral networks
- > broadening your knowledge of local service providers
- > sharing your skills and expertise.
