

## GET INVOLVED

Mental Health  
Professionals'  
Network

### **Are you a mental health practitioner who could benefit from networking with others from your professional community?**

The Mental Health Professionals' Network supports a network in your local area where mental health practitioners meet regularly to build relationships, improve referral pathways, create local professional development opportunities and share knowledge and experiences.

#### **How you can benefit**

Join your local network to help improve consumer outcomes by:

- > expanding your mental health referral networks
- > broadening your knowledge of local service providers
- > sharing your skills and expertise.

#### **For more information about your nearest network contact:**
